

Jewels

Jewels a videoslot game with regular gameplay and a bonus game. The slot contains 5 reels (3 rows and 20 pay lines). All the lines are active during each spin and there is no available option to lower the number of pay lines. The total bet is shown above the bet (coin value) in the bottom right hand corner.

Gameplay

First determine your bet, which can be increased or decreased by using the + and - symbol in the bottom right hand corner. Use the spin button to start the game.

Prizes are won when at least 3 similar symbols show up in succession on a pay line (left most to right). Each symbol has its own value. To check the symbol's value just look at your "payout overview" which you can find through the 'i'(information) button (located in the bottom left hand corner). Note: only the highest amount won per pay line will be paid.

Autoplay

When Autoplay is active a new spin is started once the previous spin has finished.

Press the Autoplay button to activate the Autoplay. Before the Autoplay starts there can be determined when the Autoplay will be stopped. There are a few options to determine when the Autoplay stops. The Autoplay can be set to stop after a determined number of bets, amount of bets, winnings or losses.

The Autoplay button turns lila when Autoplay is active. Press the Autoplay button again to stop the Autoplay.

Max bet

The highest possible bet per pay line is € 5,00 and since there are 20 pay lines the total bet would then be € 100,00 (maximum bet). A 'max bet' can be set manually by setting a € 5,00 bet per pay line or automatically through clicking on the "MAX BET" button (left hand side of the bets). The max can be switched off at any moment by decreasing the bet per pay line at 'BET'

Bonusgame

The bonus game appears when three bonus symbols show up on a pay line (in succession from left most to right). The bonus is a so called 'take-or-risk' bonus game. The bonusgame

contains a wheel of fortune.

You can spin the reel by using the 'Risk' button. After each spin you have the chance to take your prize. When there are no chances left, the amount won on the last hit will be added to the account.

Wild symbol

The Wild symbol substitutes for all other symbols except for scatter symbols and bonus symbols. When a Wild symbol shows up, free spin(s) will be activated. The Wild symbol find its way to the bottom symbol of the reel in the centre of the game. When it arrive there the Wild leaves the game (see image). When the Wild symbol is on one of the reels the spins are for free.

Scatter symbol

Three or more scatter symbols trigger between 3 and 15 free spins (randomly).
