

Lucky Stars

Lucky Stars offers a 'basic game' and a 'top game'. Both games show three reels. At the 'basic game' one payline is active. At the 'top game' 5 paylines are active. The game starts on the basic reels. After a win there is an option to place the winnings to the Winbank by pressing Win to Winbank. When there are enough credits on the Winbank the 'top game' can be started. When there are no more credits on the Winbank, the 'top game' ends.

Gameplay

First determine the bet. Bets can be determined at the bet bar at game's right side. The bet that is active is displayed in blue. The bet is the value of one coin. The 'basic game' will charge 1 coin per spin and the 'top game' will charge 4 coins per spin.

Crowns

The basic reels contain crown symbols. When three Crown symbols appear anywhere on the reels, a jackpot worth 40 coins will be won. When a Crown shows up the reel will automatically set on hold. Hold In the 'basic game' the reels can be set on Hold. When a reel is set on Hold, it will stand still during the next spin. When the player has a higher chance of winning in the next spin when reels will be set on Hold, the game will set the reels on Hold automatically. A reel can set on Hold for a maximum of one spin.
