

Magic Forest

Magic Forest is a videoslot game with regular gameplay and a bonus game. The slot contains 5 reels (3 rows and up to 25 pay lines). You can decide the number of pay lines that will be active during the spin, as a minimum 1 pay line needs to be active to start a spin.

Prizes are won when at least 3 similar symbols show up in succession on a pay line (left most to right). Each symbol has its own value. To check the symbol's value just look at your "payout overview" which you can find through the HELP button. Note: only the highest amount won per pay line will be paid.

Gameplay

First determine the bet, which can be increased or decreased at 'BET' in the games' bottom left hand corner. The bet is the bet per pay line. The number of pay lines can be set at 'LINES' underneath the bet. Scroll over the pay line's number and the pay line shows up.

Select a pay line in the game's left or right hand side and all pay lines up to and including the selected pay line will be activated. E.g. when you select number 21 on the right hand side of the reels, the number of lines will be set on 21. All active pay lines light up. Use the spin button to start the spin.

Max Bet

The highest possible bet per pay line is € 5,00 and since there are 25 pay lines the total bet would then be € 125,00 (maximum bet). A 'max bet' can be set manually by setting a € 5,00 bet per pay line (25 pay lines) or automatically through clicking on the "MAX BET" button on the right hand side of the bets. The max can be switched off at any moment by

decreasing the bet per pay line at 'BET'.

Autoplay

When Autoplay is active a new spin is started once the previous spin has finished. Press the Autoplay button to activate Autoplay. Before the Autoplay starts you can determine when the Autoplay will stop. There are a few options to determine when the Autoplay stops. The Autoplay can be set to stop after a determined number of bets, amount of bets, winnings or losses.

When the Autoplay is active the button will be green during the spins. Turn of the Autoplay by pressing the same button. When the Autoplay is inactive, the button will be its original colour.

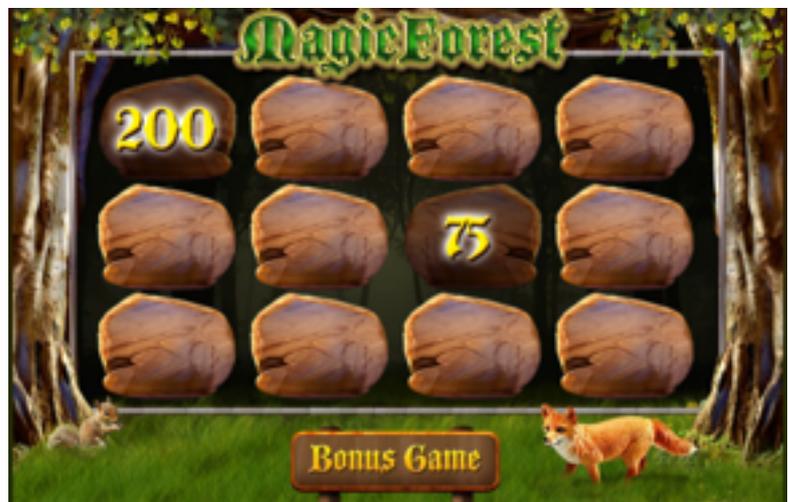

Wild symbol

Wild symbols substitute for all other symbols except for Bonus symbols and scatter symbols.

Bonusgame

Three ore more bonus symbols (on a pay line in succession from left most to right) will trigger the bonus game. The bonusgame at Magic Forest is a so called 'collect-till-stop game'. The bonus offers the possibility to collect prizes which are hided under stones. Prizes can be collected till the wrong stone has been picked. Once an X appears the game stops. All prizes that have been collected till the X appeared will be added to the balance.

Scatter

When three or more scatter symbols appears anywhere on the reels free spins will be given.

3 scatters give 10 free spins, 4 scatters 20 free spins and 5 scatters 30 free spins. During the free spins all winnings (except for the number of free spins won or prizes that have been won in a bonus game) will be tripled.

When 3 scatters appear, a prize worth the bet multiplied by 5 will be given, if 4 scatters appear, a prize worth the bet multiplied by 50 will be given, at 5 scatters the multiplier is 250.

Cashier button

The cashier button will open the deposit menu.
