

Spacepond

Spacepond is a video slot game with regular gameplay and a bonus game. The slot contains 5 reels (3 rows and 20 paylines).

Prizes are won when matching symbols in any position on three or more reels if in succession from leftmost to right.

Each symbol has its own value. To check the symbol's value, look at the "basic symbols" and "diamond symbols" which you can find through the "i" button in the lower left hand corner. Only the highest win per payline will be paid.

Gameplay

First determine the bet. Bets can be increased or decreased at 'Coin Value' in the games' bottom left hand corner. The bet as shown in Coin Value is the bet per payline. The 'Total Bet' is the bet times the amount of paylines, which is 20 paylines.

Max Bet

The highest possible bet per payline is € 5,00 and since there are 20 paylines, the total bet would then be €100,00 (maximum bet). A 'max bet' can be set manually by setting a € 5,00 bet per payline. A max bet can be switched off by decreasing the bet per payline at 'Coin Value'.

Wild Symbol

Wild symbols substitute all other symbols except for scatter symbols. If a Wild symbol has fallen, it will move to another place on the reels during the next spin. In order for your Wild to move, you are not allowed to change your bet. When you do, the Wild will not move during the next spin.

Bonus Game

When you have collected 25 Monsters and/or Evolved Monsters and the pink meter on the left of the slot is full, you will enter a bonus game and you will receive 5 free bonus spins. If you would like to see how many monsters you have collected, look at the progress meter on the left. Before the bonus game starts, you get to choose one symbol that will be Wild during the entire bonus game. During the bonus game there will only be monsters on the reels. The point value will be the average of your betting during the collecting of the monsters while playing with your balance. All monsters have the same prize value as displayed below.

Scatter

If the scatter symbol appears 3 or more times on the reels, you earn 5 free spins. 3 or more scatters can appear even during free spins.

Monster Takeover

When you have a diamond payline, a monster takeover will be triggered sometimes. An Evolved Monster Symbol in the color of your diamond win will take over the other Monster Symbols.
