

Treasure Scratch

Select the Treasure Scratch card. Press 'buy card' to buy (play) the card.

Scratch

Scratch the 'winning symbols' to see which prizes there might be won. Scratch the symbols underneath to see if prizes have been won. When a symbol matches one of the winning symbols, the prize below the symbol will be won.

All fields on the scratch card can be scratched in once via the 'scratch all' field.

Buy card/ Show card

After the game there is an option to buy a new card (Buy card) or to take a look at the previous played card (show card). When a free scratch card has been won, the 'play next card' option will appear.
